

PREFACE

Thank to God the almighty, the Module for training has been completed. By all of the team hard work, this strategic plan will escort the implementation of QITEP in Science vision which is **To be a centre of professional excellence in the area of science teaching for teachers and education personnel within the framework of sustainable development.**

QITEP in Science has its own special areas in environmental education, earth and space science, laboratory management, school management, ICT based science learning, research and development in science education. The centre play important role to contribute in improving the quality of science teachers and education personnel to meet the needs and demands in improving the quality of science education in the Southeast Asian countries. It obligates QITEP in Science to formulate the strategic plan in improving the competence and professionalism of science teachers and education personnel referring to the needs of the improvement of quality of science teachers and educational personnel in the region.

It is expected that the implementation of module of the training can support the achievement of QITEP in Science vision and mission.

Bandung, April 2010

Director,

Dr. Sediono Abdullah
